Investigate the crime scene and complete the crime scene report below completely. **Some details you will have to “discover” at the crime scene. These details for the purposes of our crime scene report are fictitious and supplied by you, but keep them realistic.** When the report is completed, submit it to your teacher.

Date and time of report: February 10, 2006 at 4 pm Case # 23315

Crime Scene Investigator assigned to case: Dayne Philips

Type of crime or incident: Gunshot (murder)

Location of incident: Atlanta, GA

☐ Arrival at the scene ☐

Date: February 10 Time: 8 pm

Responding Officer: Kaitlyn Olschalger

Victim Name (Last, First): Smith, John

☐ Witnesses ☐

Witness Name- Must list at least TWO witnesses to hearing or seeing something regarding the crime.	What did they witness?	Approximate Age, Race and Gender of witness
Travis Elmer	Heard yelling and the gunshot	31; white; male
Pat Weisser	Saw a vehicle (potentially the killers) speed away	15; white; male

<p>Incident Narrative- Include a summary of what happened during the crime, any important evidence that should be collected, as well as any dates or times that have been documented. Dates and times might include the approximate time of the crime or estimated time of death as decided by the Medical Examiner. This narrative must be between 8-12 sentences long.</p>
<p>At around 2pm, the killer entered the victims house so police got to the crime scene about an hour before he was shot. Smith was holding a gun so it is likely that he knew someone was coming and was prepared.</p> <p>Smith and the killer were arguing about something as one of the witnesses said and that caused tension which led to the gunshot to the head. There was many evidence that was collected gave out information to us that the killer was Thomas Muller. Muller was found out to be Smiths drug dealer. The marijuana found on the table meant that he smoked frequently. Smith had met up with him the day before and decided to run off without paying for the drugs that he'd take. This led to Muller tracking him down and shooting him after a heated argument.</p>

Background or Supporting Information- Include any information that you uncover about the victim such as where he works, any hobbies or habits, any links to drugs or crime, any possible suspects or motives for the crime. This supporting information must be 5-10 sentences long.

John Smith was a factory worker at 3m. After he had gotten fired for getting caught smoking on the job, he had barely any money. This is why he had stolen the drugs from Muller. Smith also had a gambling problem which he would often waste his money on most nights. He often never payed anyone back and had a lot of enemies.

Evidence- List all items of evidence; you must have at least 7 items. You may add more than 7 as needed.	Indicate how evidence was collected (Example: The paint sample was collected in a paper bindle and packed in a small sealed and labeled box to be sent to the lab for processing.
1. Bloody shoe print	photographing, casting, lifting,
2. Shirt button	Package in a paper bag or envelope
3. Stand of hair	Use tweezers and place it in clean pharmaceutical paper then put it in a glassine envelope, fold it, and seal it shut
4. Fingerprints	processed at the scene using gray powder, black powder, or black magnetic powder then the prints are photographed
5. Body fluid	Use a swab then secure each in separate swab box or coin envelope
6. Broken fingernail	placed in a paper packet which is then placed in a paper envelope

7. Gun	Put into a firearm box that holds it in place; ammunition packaged separately
Alcohol bottles	transported to non-breakable, leakproof containers

Departure from the scene
